**What we do**

UpRising is a UK-wide youth leadership development organisation. Our mission is to open pathways to power for

Why?

The people who represent our interests and lead our institutions do not reflect the population of Britain

How?

We offer a range of leadership and employability programmes for 16-25 year olds. Our flagship programme is a nine month leadership programme providing 'access behind the scenes' training sessions with some of the UK's most senior leaders across the political, private, public and not for profit sectors. Thanks to the generosity of our supporters, participants do not have to pay to attend any of our programmes.

Background

UpRising was developed and launched by the Young Foundation in 2008 in East London. In April 2013 UpRising

UpRising's NCS Programmes

For Summer 2017, UpRising will be delivering the National Citizen Service (NCS) to 255 young people from Tamworth and Lichfield.

NCS is a once-in-a-lifetime opportunity for sixteen and seventeen year olds to develop their confidence, learn new skills, make new friends and learn more about making a difference in their community.

The programme kicks off with a residential at an outdoor activity centre for five days, where young people test their limits through a range of challenging activities and experience the freedom of being away from home with new friends. Young people will then spend five days at University halls of residence, where they will live independently and develop a range of useful life skills. Participants then spend the next week in Tamworth or Lichfield, where they learn more about their local area and develop a social action campaign to benefit the local community.

Do you have the skills to support and inspire young people?

Then volunteer with us as part of our delivery team on NCS!

UpRising NCS Volunteers

UpRising is looking to recruit passionate, committed, reliable and enthusiastic volunteers to support teams of sixteen and seventeen year olds through its NCS programme this autumn. If you have some experience of working with groups of young people - or are looking to develop experience in this area – this could be the ideal role for you.

Why volunteer?

Volunteering provides a rewarding and enjoyable opportunity for you to give back to a worthwhile cause. It can be a great way of developing your skills and building your CV with credible experience. The UpRising NCS Programme will provide you with experience of working directly with young people, both in a residential and community setting. You will receive a certificate from us and we can provide references for future employers.

These roles are ideal for someone who wishes to gain experience in youth and community development and benefit from being involved in a national project with an established charity.
